o' cheek and chaff,
And that he's our own flesh and blood, wich let's
hope that he may be it,
But I've a respectable family to my back, and I
don't see it.
Anyways he said as 'ow Bright would protect my
Bill from the rude little boys,
And keep him out o' mischief and larks and nonsense and noise;
And now all along o' that wery Bright and young
Gladstone he's gone and got lost,
As clean as the poor Brussels sprouts that was nipped off clean by last frost;
And I'm worrited to that degree as I'm pretty
near drov' wild,
Now I've lost my last out o' four, and only one
growed up to a child!
That's my fust, born in '32, as might make any parient proud,
A blessin' to me, and a beauty, as used to be gin'rally allowed,
Though they *do* say 'ard things on him, as they do
some of your Beales's and Potter—
Which "proud o' the puddin'" and "ansum is,"
etcetera, ain't that sort's motter—
Well I nussed, and washed, and did for him, since
he was a blessed babby,
(And didn't we keep his christenings and birthdays at Woburn Abbey!)
They say I'm as proud as a hen with one child,
but a parient will be a parient,
And I've good call to be proud fo' my Bill, my
fust and my air apparient.
I've 'ad three since as never growed up, being
born, as you may say, still,
And the fourth he's the one that's gone and got
lost my latest Bill,
I did 'ope I'd have reared him through rash and
croup and teething,
For I never saw a likelier child than he is—leastways was—breathing.
And now he's gone and got lost, they say, but I
know better nor that,
It's them nasty kidnappers has got him, which it's
their old game they 're at.
They 've stole no end of babies from our side of
the court,
And dressed 'em up to go beggin', arter cuttin'
their good clothes short.
There's Catholic 'Mancipation and Corn Laws, as
they served so.
And my little Bill's the last, and what parients,
I'd like to know,
Wouldn't make a row and a rumpus, and give 'em
a piece of their mind?
Which it's only the peece on it as I am likely to
find,
Now they've stole my little Billy, and it's only too
well I knowe,
They're a goin' a beggin' with him, arter changin' his dear little clothes!

SERVIA.

The increase of "the area of freedom" by the peaceful addition of a nation is an event of sufficient importance to attract general attention. This has taken place by the virtual withdrawal of the Turkish Government from Servia, one of its provinces in the Southeastern portion of Europe. Servia is a mountainous district inhabited by a race of hardy, brave and industrious men, descendents of ancestors who were dependents of the Roman Empire until they threw off the yoke of Rome and maintained their independence for many centuries — Near the close of the fourteenth century they were subjugated by the Turkish power which retained its supremacy until the beginning of the present century. In 1804, they again secured their independence; but in 1813 the Porte again sent armies to accomplish their conquest, and, after a struggle of three years, Servia submitted to a compromise by the terms of which she was left under a partial military rule and paid a large annual tribute to the Ottoman Empire. Turkey has now withdrawn its army and left the Servians to conduct their own government. As the whole genius and tendency of the people is toward republicanism, it is not probable any rule can be established except that of popular institutions.

The mountains of Servia abound in mineral wealth, especially in the minerals that are employed in the useful arts, as copper, iron, lead and coal; while the fertile valleys produce largely of cotton, wheat, tobacco and fruits.— Turkey is thus yielding gradually to the loss of the valuable territories whose tribute has continued her national existence to the present time; and the progress of decay has of late been so rapid that her final demise from among the nations of the world appears to be near at hand.

The New York Custom House.

No man accepts the office of Collector at New York except with the anticipation of making a fortune. The direct compensation is better than that of the President, and there are many perquisites and jobs, all of which play into the hands of the Collector. It may not be impossible for an honest man to hold the office and conduct its business consistently with principles of integrity; but, if such a man has held the position and administered it on that plan throughout, he is an exception. Mr. Smythe, the present Collector, was believed to be such a man. His management of business affairs in which he had previously been concerned led to the belief that the Custom House would, under his management, be so conducted as to fulfil the purpose of its establishment. But Mr. Smythe has fallen into great disrepute in consequence of the exposure of such exceeding dereliction that his removal by the President or his impeachment appears imminent.

There is reason, however, to believe that Mr. Smythe was not informed, before his acceptance of the office, of all the modes in which it was expected to pay tribute to various parties; that it was his purpose to perform its functions with strict integrity; but found so many jobs already farmed out that he was compelled to fulfill contracts made beforehand or resign.— Among the pensioners upon the office was a Mrs. Perry, recommended to him by a letter from the President, to whom a round sum was to be paid and whose connection with the business has not been explained. A confusion of bargains for the various places which were worth seeking, was forced upon his attention, sufficient to perplex the most clear-headed man. Whether more sinned against or sinning, his term of service will be retained in his memory as a most disagreeable episode of his life, if he escapes suicide to which his predecessor, Mr. King, was driven by the perplexities of the place.

New South Carolina.—The tidings we print this morning from the capital of South Carolina are calculated to astonish the Rip Van Winkles of the North. A great meeting of the People has been held preliminary to a reconstruction of the State under the recent act of Congress, and such eminent chiefs of the late Oligarchy as Gen. Wade Hampton have fraternized heartily with the most capable and trusted negroes; the leading whites and blacks vying with each other in expressions of mutual confidence and good will. The whites concede to the blacks every right which they claim for themselves; while the blacks take the lead in asking Congress to repeal all disabling and disfranchising acts, so as to allow the State to command the services of her ablest and most trusted citizens. In short, South Carolina has already taken her stand on the true, broad, generous National Platform of Universal Amnesty with Impartial Suffrage, and will soon be in Congress, shaming the obstinate owls of the Middle and Western States out of their lingering prejudices and affectations of prejudice against a recognition of the inalienable Rights of Man.

Such is the natural, beneficent operation of the Reconstruction act of Congress, so fiercely denounced by the President and by the Copperhead Congressmen and journals, as an act "to organize hell" in the South, to destroy Liberty, and to whelm the whole land in anarchy and military despotism. So far as we can now see, every ex-Rebel State but Texas will promptly and cordially reorganize on the basis proposed by Congress, and have its delegation ready to take seats in Congress before the close of this year. What patriot heart does not swell with gratitude and joy at the prospect?

A Clerical Petition.—A Mr. Pierce presented a petition against a license law at a recent session of the Massachusetts legislature, which purported to be signed by one hundred and fifty-six clergymen "of Boston and vicinity." The Boston *Transcript* says that in that case, quite distant parts of the commonwealth are considered as in the vicinity of Boston. The statement was made in the House that all the Congregational Trinitarian clergymen of Boston had signed this petition. The truth is that exactly one-half of them had done so. Of one hundred and twenty-seven clergymen settled in Boston twenty-seven signed the paper in question. The *Transcript* publishes the following table:

	No. of signers.	No of non-signers.
Baptists	4	8
Congregational Trinitarians	6	6
Unitarians	3	19
Methodists	10	6
Presbyterians	1	5
Universalists	3	1

Out of the eighteen Episcopal clergymen of Boston, not one signed the petition. Among the names of Methodist clergymen upon the document is that of an estimable journeyman printer, employed in the book department of the Transcript office.

Editors Daily News:—The above item taken from a Boston paper needs no comment. Probably the worthies that penned those lies, and are engineering the sumptuary laws in the *hub* are the same style of christians that are leading the reform movement in Newport—men who dealt in liquor—"Rummies"—as long as they found it paid, then invested their illgotten gains in safe stocks, and commenced a tomahawk and scalping-knife war upon everybody that did not follow their lead —and like their brethren of old, cried "crucify them" "crucify them."—But their crowning act of rascality is in classing all females with paupers, idiots, insane persons, minors, Naragansett Indians, drunken loafers, and the vilest scum of society, not to be entrusted with the ardent, and anybody selling them, forfeiting a thousand dollars. Complimentary this to those who are a little lower than the angels, and in some States are about to be enfranchised. We think Esq. Sheffield's law throws Neal Dow's quite into the shade, and that such a genius should be elected to the United States Senate as quick as possible, that his light may shine all over this benighted land, and no longer be confined to little Rhode Island. If the Ladies are wise they will lay in a good stock of peppermint and Tansy cordial, as this bill goes to the root of all such abominations, and this great expounder as well as maker of laws—Sheffield—is after them with a sharp stick. H-

The President listened very attentively to the address made on behalf of the Fenian brotherhood in America, at the recent interview, and at its conclusion said the great question was, "is there a *de facto* Government actually in existence?" The delegation assured him there was, when he continued:—"This question shall receive the most serious consideration—that consideration necessary in deciding a matter of such great importance. You are aware that my sympathies have always been with your people." The delegation asked the prompt interference of this Government in behalf of the American naturalized citizens now pining in British dungeons for no crime whatsoever. The President said that measures had been taken for the release of several naturalized citizens, and that the details and particulars of all other cases forwarded to the Government would receive attention, and that full justice should be done to naturalized citizens.

The New England Agricultural Society is to hold, in conjunction with the Rhode Island Society for the encouragement of Domestic Industry an exhibition at the Cranston Trotting Park, commencing Tuesday, September 3d, 1867, and continuing four days.

In relation to this fact, a correspondent of the *Journal* says:

> "The selection of Providence and its vicinity is the result of a combination of the most favorable circumstances of centrality and railway facilities. The Rhode Island Society in its registry of members embraces the names of citizens from nearly every town in the State. It is not a *local*, but a State Society, and the number of its members should be quadrupled. Every man of any pretensions to agricultural, manufacturing, mechanical or commercial pursuits, or in sympathy with them, should see his name on the list of membership and feel an individuality of responsibility in the approaching exhibition. The honor of our State will be at issue, and the New England Society have a right to expect from us as much or more of honorable results than have heretofore been realized. The industry of Rhode Island has been, and is a subject of universal commendation and observance. Our reputation is established in all the arts of skill and accomplishment. Let us add to our laurels in the proposed industrial congress and competition, and to them make claim to the more genial qualifications of a generous hospitality."

Insurance and Iron Shutters and Hoistways.—The New York Board of Fire Insurance Companies have just adopted some new regulations in relation to iron shutters and hoistways. Buildings so provided are to be allowed a deduction of ten cents from the gross standard rate, provided such buildings have first been officially inspected. Stores and buildings which shall have hoistways or dummies, or elevators inside, without iron slides on each floor, shall be charged ten cents in addition to the usual rates.

The Riot at Carlisle, Penn.—The riot between soldiers and citizens at Carlisle, Penn., Friday night, was a serious affair. Two soldiers and two citizens had a fight early in the evening, and, forty soldiers afterwards appeared in front of the Court House and fired into the crowd. The citizens returned the fire with revolvers and the soldiers were driven to the edge of the town, and more troops arriving, the firing was kept up for some time. The guard arrested several citizens and took them to the garrison. A Hamill, one of the two soldiers, was killed. A Mrs. Stewart, who was standing in the doorway of her house, was shot through the foot. Thos. Zimmerman was shot through the arm. Jacob Small was shot through the right hand, and a man named Hellebaugh in the head. Two soldiers were wounded, one in the head mortally and the other in the leg.

South Carolina and Georgia Moving.

One the most remarkable meetings ever held in South Carolina took place at Columbia Monday, the occasion being a celebration by the negroes of the passage of the bill enfranchising the black race.

By invitation, General Wade Hampton, ex-United States Senator, W. F. DeSaussure, Edward Arthur, W. J. Taller and James G. Gibbs addressed the meeting; also, Rev. David Pickett and Beverly Nash, both colored. Sentiments were expressed highly honorable to both sides.

A despatch from Columbia says:

The negroes are gratified with the spirit of political affiliation with which they have been met, and the citizens are equally pleased to find the colored men identified with the true interests of the state.

"Should a convention be called, the latter will probably nominate and support the best men in the country, and, as declared by Mr. Nash, will urge Congress to repeal the disfranchising clause."

A similar meeting was held at Savannah Monday, at which about three thousand negroes were present. Three white and five colored speakers addressed the assemblage.

The speeches were confined to topics of universal suffrage and the right to sit on juries. The affair passed off very quietly.

Lumbering in Maine.—The Bangor Whig learns that the logging teams in the woods have had an excellent chance for the last few weeks, and are doing a great business. Probably the number of logs cut will be quite as large as anticipated in the fall—the good weather of March compensating for the delays from the want of snow in December.

Senator Wilson intends offering a Bounty bill which will include all soldiers, sailors and marines who enlisted for not less than two years, and give an average bounty of eight dollars and thirty-three cents per month to all except deserters, captured prisoners who enlisted in our army, and a few others excepted in his Bounty bill of the first session of the last Congress, which failed to become a law.

SCHENCK'S MANDRAKE PILL.

A certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

TO give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce their wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain, and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner: The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration, while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz., Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond Street, New York, and 35 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free; but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1,50 per bottle, or $7,50 the half dozen. Mandrake Pills 25 cents per box.

THE BLACK CROOK—SPECIAL.

IN answer to Mr. A. J. Ward's Card in yesterday's paper we would say, as appointing him our Agent for the sale of Tickets here we were not aware that he considered all Theatres *immoral*, and would not sell *Theatre Tickets* on any account, or we should not have so advertised. We obtained his address from a business friend, and made the announcement without first seeing him, believing as we have found through all of New England (except this instance), that all *first class stores* were glad to sell our Tickets, believing it did them good instead of hurt. The Black Crook is now in its twelfth week at Whitman's Continental Theatre, and played nightly to crowded houses, composed of the elite and fashion of Boston and the neighboring cities. Not one of whom have ever pronounced it an 'immoral or indecent play,' but the whole public and the entire Boston press pronounce it the most costly and gorgeous Spectacular Drama ever produced in Boston.

The sale of the Excursion Tickets for Wednesday next commences Thursday morning at DR. WOOD'S CITY MUSIC STORE, where a plan of the Theatre can be seen.

NO TICKETS FOR SALE AT WARD'S.

Supreme Court.

TUESDAY, March 19th.

The court read an opinion in the case Geo. B. Hazard vs John H. Clegg. This was an action brought by Plaintiff for possession of an estate sold by the Sheriff under an execution against Clegg and purchased, at the sale, by Hazard, who received a regular Sheriff's deed. The defense alleged that the property was not sold at the time of day advertised, but at an earlier hour, and offered to prove it. They also claimed that the Sheriff's return on the execution was insufficient, it did not set forth that the property had been advertised according to law. These points were submitted to the court by counsel with arguments in writing. The Court held that the Defendants could not be admitted to prove whether the property was sold at the time advertised or not, as the officer's return was conclusive upon that point. They further held that the Sheriff's return was defective, unless amended, because it did not set forth that the property had been advertised in any newspaper as required by law; and, although this may have been done, it cannot be proved outside of the return. The Court granted a new trial, and Plaintiffs gave notice that they should move at the next term for leave to amend the officer's return in accordance with the fact. Continued. Van Zandt for Plaintiff, Blake, Payne and White for Defendant.

The case on trial at adjournment yesterday, was Cook vs Healy, an action for Damages for false imprisonment.

William P. Sheffield for Plaintiff and Abram Payne and F. B. Peckham Jr for Defendants—This case is one where Plaintiff nominally sues for false imprisonment. The real Defendant is the City of Fall River as Mr. Cook was imprisoned for not paying tax, in that city.

Mr. Hayes, made a plea of an hour and a half for the defence, this morning, at the close of which the Court adjourned till half-past 2 o'clock, P. M.

Walter Tobey, arraigned for setting fire to the building corner of Thames St. and Bannister's Wharf, plead guilty and was sentenced to the Reform School during his minority.

The Grand Jury came in, yesterday, with bills of indictment against Daniel Peters, for breaking, entering and larceny, to which he pleaded guilty and was sentenced to 10 months in the Providence County Jail.

The criminal action against John W. Voss for embezzlement from the Acquidneck Bank, was called up and urged for trial by the Attorney General, but on motion of defendant's counsel, Van Zandt and Tobay, was continued.

MILITARY.—Two companies of the 3d U. S. Artillery, stationed at Fort Adams, have been ordered South.

A colored military company is being organized in this city. A meeting was held at the State House last evening, at which fifty-five were present. It will be attached to the 1st Brigade, R. I. Militia, Brig. Gen. Nathaniel Church commanding. Gen. Church was present at the meeting last evening. Another meeting will be held this evening, for organization and election of officers.

The 1st Brigade R. I. Militia, for so many years, until recently, a myth, will now form quite a respectable corps, composed as it will be of the Newport Light Infantry, two companies of Aquidneck Rifles, and the company above mentioned.

A GOOD ACT.—In the proceedings of the General Assembly, near the close of the session, our readers will have observed that an act was passed making compensation to Charles D. Hammett for military services. This claim is for the services of Charles D. Hammett, Jr., who died in the Southwest, and whose pay on account of some technicalities, was never received. By the active efforts of Hon. F. W. Stevens, the claim has been brought to the attention of our State Government and referred to the Governor for investigation; and there is every reason to believe that, through his agency, the whole sum will be secured. Mr. Stevens, by pushing this matter with his accustomed energy, against much opposition, has rendered a worthy tribute to a most estimable and heroic young man who fell a martyr to his country's cause; and has also demonstrated that he can accomplish, in the counsels of the State, what men of less influence cannot do.

THE EXCURSION TO BOSTON.—Our readers will notice by advertisement in another column that the sale of tickets commences to-morrow morning at Dr. Wood's Music Store instead of Ward's as first announced. The "Black Crook" has been played at Niblo's in New York for nearly two hundred nights and is now in its twelfth week at Whitman's Continental Theatre, Boston, hundreds being turned away nightly. As the number of tickets for this excursion is limited we would advise an early application for seats. Some of the best seats in the house are reserved for Newport.

CORPORATION MEETING.—At the annual meeting of the corporation of the Marlborough Street Methodist Episcopal Church, on Monday evening, a vote was passed unanimously, repealing the law which prohibited the seating of colored persons in the body of the house, and consigned them to the northwest corner of the gallery. This is one shameful relic of superstition and prejudice swept away.

The following persons were elected trustees: John Allan, John O. Braman, William R. Pitman, William C. Thurston, Job Lawton, Robert Wilson, George Popple.

It was reported that, during the past year, the debt of the church has been been reduced to a small amount, which can be easily liquidated.

Hon. Wm. Sprague has our thanks for a series of the Congressional Globe; and Hon. T. A. Jenckes for a copy of the New Orleans Riot Report, Report on the Mineral Resources of the West, Report on the Condition of the Indian Tribes, and several other documents.

PERSONAL.—Hon. T. A. Jenckes is in town in attendance at Court, being one of the counsel in an important case now pending.

Ohio proposes to fine or imprison any teacher in that State who flogs a pupil.

THE FLOOD AT MEMPHIS AND BELOW.—The Louisville Courier of Friday says that at Memphis the river is said to be forty miles wide, its limits on the Arkansas shore being evidently boundless. At divers points along the Mississippi the people are living in their houses in water one and a half to two feet deep, and have in many cases built temporary platforms above the tide, awaiting its abatement, and wholly unconscious of the second flood that is now on the way to overwhelm them. The flood in the Cumberland is abating. Green river is higher than ever before known, and houses, barns, tobacco warehouses and other kinds of property have been swept off. At Evansville, Henderson, Shawneetown, Uniontown, Caseyville and other towns below, the flood has done great damage, all of these towns being more or less overflowed. Caseyville and Shawneetown are completely flooded, and at Shawneetown many of the houses are entirely covered, and the inhabitants have had to leave for the hills.

John Stuart Mill has written another letter in favor of giving the suffrage to women. It was addressed to a Reform meeting held in York, England, and contained the following passage: "I hope you will permit me to observe that the principle that 'it is unjust that the great bulk of the nation should be held amenable to laws in the making of which they had no voice,' cannot stop at 'residential manhood suffrage,' but requires that the suffrage be extended to women also. I earnestly hope that the working men of England will show the sincerity of their principles by being willing to carry them out when urged in favor of others besides themselves."

At the hearing upon the license question before the committee of the Massachusetts Legislature, yesterday, the Rev. Dr. Thurston, of Fall River, bore testimony in opposition to a license system. He had been told, he said, that in Warren, in Rhode Island, where a license law exists, there are forty liquor dealers, and only one in the whole town has a license.

THE REBELLION RECORD, Part 61, has good engravings of Gens. Buell and G. K. Warren, and supplies documents illustrative of events from the last of 1862 to the close of the campaign of 1863, including operations on the coast and the battle of Fredericksburg. Many of the documents are the reports of officers of the rebel army.

RHODE ISLAND, the smallest State in the Union, has the densest population per square mile of any and in this particular exceeds any nation of continental Europe, except France, which it nearly equals. Of the population of the State, one in nine of all over fifteen years of age cannot write, and more than one in thirteen can neither read nor write.

In the British House of Commons, yesterday, the government reform bill was introduced, but debate was postponed until March 25. Many disasters have been caused on the English and Irish coasts by the recent gales. Various rumors relating to military movements on the Continent are given in the despatches to-day. An order for the recall of Admiral Tegetthoff, to assume the command in the Adriatic, is said to have been sent to this country. In the Corps Legislatif the announcement has been officially made that the Emperor favors the assumption of the Papal debt by the Catholic powers.

The Irish *Times* of the 6th ult., announced the arrest at Limerick Junction, on the arrival of the train from Cork, of "John Morrissey, the celebrated prize-fighter and member of the United States Congress, on a charge of Fenianism."

XLTH CONGRESS—First Session.

WASHINGTON, March 19.

In the Senate, a resolution asking for a committee to investigate the publication in the newspapers of proceedings in executive session, contrary to the injunction of secrecy, was offered. The House bill to furnish clothing to invalid soldiers passed. The credentials of Mr. Thomas of Maryland were referred to the committee on the judiciary. A conference committee was appointed on the supplementary reconstruction bill, who reported the Senate proposition in reference to the ratification of the State constitution somewhat modified. The report was agreed to by both houses and the bill goes to the President. In the House, joint resolution prohibiting the issue of agricultural college scrip to States lately in rebellion until fully restored, was passed. A bill was passed to exempt wooden ladders from taxation. The confiscation matter was called up, and after Mr. Stevens' speech had been read by the clerk he moved to postpone the subject until December next, and the motion was adopted. The bill appropriating a million of dollars for the destitute people of the South was taken up in committee of the whole, but was not disposed of. The Senate amendments to the bill to provide clothing for invalid soldiers were concurred in and the bill passed. The House soon afterwards adjourned.

—o—

FROM WASHINGTON.

WASHINGTON, March 19.

The Senate will refer the credentials of Governor Thomas who claims a seat as Senator from Maryland, to the Judiciary Committee. His chances of admission are small.

The House has passed a joint resolution that no Southern State shall receive agricultural college scrip except Tennessee.

Chief Justice Chase is besieged by applicants for positions as register under the bankrupt act. Gov. Jack Hamilton is urging his own appointment as register at New Orleans.

The debate in the House this afternoon on the Senate bill giving one million dollars for the relief of the South, showed that the sentiment of that body is still decidedly hostile to the measure. The principal feature of the debate was a laughable but not very creditable speech of the wangdoodle sort, made by Mr. Covode, in which he rehearsed the biblical story of Ahab, Ben Hadad and Jehosephat with very original comments. A recent letter of the poet Whittier, in favor of relieving the South, was read by Mr. Woodbridge, and other letters bearing on the question were read by other speakers. Mr. Williams of Indiana wanted a paragraph read from a South Carolina paper, which began by asserting that Washington is now a den of thieves and prostitutes, and that congressmen bring their mistresses to the galleries of the capitol, but Mr. Wood made a point of order, that it was not fit matter to be read in the House, and the Chair, Mr. Pomeroy, sustained the point, saying that such language might be decent enough for the capitol of South Carolina, but was not for the capitol of the nation. The paragraph was accordingly ruled out. Mr. Williams explained that he wanted it read to show the sentiment of these people respecting Congress, which is now asked to aid them so largely.

The supplemental Reconstruction bill finally passed both houses late this afternoon and will be laid before the President to-morrow. The disagreement between the two houses related to the mode of ratifying the Constitution of the reconstructed States. It was settled by requiring it to be ratified by a majority of the registered votes of the qualified electors cast at the election on adopting the Constitution, with at least one half of all the registered voters voting upon the question. Congress is then given the power to be satisfied that there was a full and free election, and that no person was intimidated from going to the polls.

ARRIVAL OF THE STEAMSHIP MORAVIAN.

PORTLAND, ME., March 19.—The steamship Moravian, Capt. Alton, from Liverpool March 7 and Londonderry March 8, arrived this afternoon.

A report has reached the English consul at Zanzibar that Dr. Livingstone and half of his party had been murdered by the Caffres. The account rests on the authority of his native attendants who escaped. The attack was sudden, but the doctor had time to overpower those facing him, but was cut down from behind while endeavoring to reload.

The Fenian rising has evidently been well matured and well organized. The first efforts of the Fenians seem to have been made with a view to securing the arms kept in the constabulary barracks and cutting off railway and telegraph communication.

The London Times says that though there is no political danger it is impossible to exaggerate the social calamities which the nefarious Fenian conspiracy is bringing on the whole of Ireland.

PATRIOTIC RESOLUTIONS ADOPTED.

WASHINGTON, March 19. A dispatch from Selma, Ala., states that the largest meeting ever witnessed in that city took place yesterday. Resolutions were unanimously adopted strongly expressive of Union sentiments, and recognizing the right of Congress to prescribe the terms of reconstruction and readmission of the seceded States into the Union, and therefore urging that the people of Alabama should forthwith accept the beneficent terms of reconstruction.

THE
CENTRAL
PACIFIC R. R. CO.

Having Completed, Equipped and put in operation nearly One Hundred Miles of their Road, from Sacramento, California, to within 13 Miles of the summit of the Sierra Nevada Mountains, continue to offer for sale, through us, their

FIRST MORTGAGE BONDS

Issued in conformity with the Acts of Congress and the laws of the State of California upon the division of their Road located in the State of California, and extending one hundred and fifty-six miles from Sacramento City to the California State line.

The Bonds have Thirty Years to run from July 1, 1865, and are secured by a

FIRST MORTGAGE,

constituting an absolute prior lien on the portion of Road above named, with all the Rights, Franchises, Equipments, &c., pertaining thereto.

The amount of these First Mortgage Bonds to be issued per mile is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is DECLARED BY ACT OF CONGRESS TO CONSTITUTE A LIEN PRIOR AND SUPERIOR TO THAT OF THE UNITED STATES GOVERNMENT.

Interest at the rate of Six per cent. per Annum, payable Semi-Annually, on the First days of January and July.

Principal and Interest payable in

UNITED STATES GOLD COIN,

in the City of New York.

The price of the Bonds is fixed for the present at 95 per cent., and accrued interest from January 1st in Currency, the Company reserving the right to advance the price whenever it is their interest to do so.

The Road forms the Western part of the

MAIN TRUNK

of the

Great National Pacific Railroad,

authorized, adopted and aided by the

UNITED STATES GOVERNMENT

It runs through the heart of the richest and most populous section of the State of California, connecting the

Extensive Mining Regions of
Nevada, Utah and Idaho

with Sacramento and the Pacific Coast, from whence their supplies must be drawn; and the Earnings of the portion already running are very heavy, *and largely in excess of the interest upon the Company's Bonds.*

Having been for some time familiar with the operations of the Central Pacific Railroad Company, we are satisfied that they are conducted with rare ability and prudence, and that the energetic and economical management of the Company's affairs entitles them to the confidence of Capitalists and of the public. We have carefully investigated the progress, resources, and prospects of the Road, and have the fullest confidence in its success, and in the value and stability of the Company's securities. The attention of Trustees of Estates, Institutions, and individuals desiring a long, safe and remunerative investment, is especially invited to these First Mortgage Bonds.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

FISK & HATCH,

Bankers & Dealers in Government Securities,

No. 5 Nassau Street, N. Y.

N. B.—All kinds of Government Securities received at the full market price in exchange for the above Bonds. Also,

☞ All Description of Government Securities kept constantly on hand, and Bought, Sold or Exchanged.

☞ Gold Coin and U. S. Coupons bought, sold, and collected.

☞ Deposits received on liberal terms, subject to check at sight.

☞ Collections made throughout the country.

☞ Miscellaneous Stock and Bonds bought and sold at the Stock Exchange on commission for cash.

☞ Special Attention given to the Exchange of SEVEN-THIRTY NOTES of all the series for the New FIVE-TWENTY BONDS of 1865, on the most favorable terms.

MAKING YOUR OWN SOAP
With Your Waste Grease.

Penn'a Salt Manufacturing Co's
RENOWNED
Saponifier!
(Patents of 1st and 8th Feb., 1859.)
OR
CONCENTRATED LYE.

2 Cents only for every pound of Soap.

DIRECTIONS.

Dissolve one box of Lye in 2 1-2 pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into this stir slowly the dissolved lye, at the same stirring until the whole becomes well mixed and thin as molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and heat with a gentle heat until the soap is all dissolved, then pour into a tub to cool. GOODS LOANED

On Weekly or Monthly Payments.

THE system of furnishing Goods upon Weekly or Monthly Payments is peculiar to my establishment. It is invaluable to persons of limited means, who wish to commence housekeeping or replenish their dwellings, but who have to earn their money to do it, and still support their families. The system has worked so safely that it is in constant practice at my Emporium on Broad street.

The System Contemplates Two Things.

FIRST—The accommodation of persons having a stated limited income, and also those who desire to use their money and pay instalments from its earnings. They can have the use of my property until by weekly or monthly payments they make it their own.

SECOND—The perfect security of myself against losses. The goods are loaned by me to them, and hence cannot be moved without my consent.—The fee of the goods being in myself, I can call for them at any moment. This ensures promptness of payment according to the terms of agreement for their use until paid for, when they become the property of the user by a regular bill of sale. The contract is drawn legally, and its violation by the removal of the goods or their attachment [illegible] would subject the person doing it to heavy penalties.

These two features secure to me safety, and to my customers cheapness of price. They do not have to pay for losses incurred through others, [illegible] the system secures a good class of customers, [illegible] enabled to benefit the worthy whose means are limited, and not injure myself or [illegible] with such transactions.

I have as ever the best assortment of

STRANGUARY AND BURNING, OR PAINFUL
URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that most distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a better remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

Stroudsburg, JAN. 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was Dropsy, and my physicians told me there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,
MRS. MARGILE C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lancinating or shooting pains through the parts, will in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak most particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANVILLE, Pa., June, 1862.—*Dr. Wm. H. Gregg*—*Dear Sir*:—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty four hours. I was obliged to get up as often as ten or twelve times during the night, and five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured, soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H. Gregg & Co.*—*Gents*:—I freely give you liberty to make use of the following certificate of the value of Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder*. I called a physician, who attended her about three months, when he left her worse than he had found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For*," said he, "*she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced the use of Constitution Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BENSCHOTEN.

WETHERSFIELD, Conn., March 2, 1863.—*Dr. W. Gregg*.—*Dear Sir*:—Having seen your advertisement of Constitution Water, recommended for inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half of it, to my surprise, I found a great change in my health. I have used two bottles of it, and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommend it to be. May the blessing of God ever attend you in your labors of love.

Yours truly,

POLAND'S
Magic Bilious Powders.

THIS PREPARATION is the discovery of the Rev. J. W. POLAND formerly the Pastor of the Baptist Church in Goffstown, N. H., and a man dearly beloved by that denomination throughout New England. He was obliged to leave the pulpit and study medicine to save his own life, and his Magic Powders are one of the most wonderful discoveries of modern times. It is

THE GREAT LIVER AND BILIOUS REMEDY

which completely throws in the shade all other discoveries in medicine; and it affords him much gratification that they receive the unanimous approbation of all who have tested them. The Magic Bilious Powders are a

And a most wonderful

Cure and Preventive of Fever and Ague!

(We advise all who are troubled with this fearful malady to always keep the Powders on hand ready for immediate use.)

Here are a few important particulars:

1st.—They are the Great Specific for all Bilious Affections.

2d.—They are the only known remedy that will cure Liver Complaint.

3d.—They are the only known remedy that will cure Constipation.

4th.—The Powders are so thorough in their operation that one Package will be all that the majority of those using them will require to effect a cure.

5th.—They are mild and pleasant yet the most effectual cathartic known.

6th.—They are the cheapest and best medicine extant, as they can be sent by mail to any part of the globe for the price, 50 cents.

THIS GREAT REMEDY FOR ALL DISEASES of the

STOMACH,

is the discovery of the inventor of Coe's valuable Cough Balsam, while experimenting for his own health. It cured Cramp in the Stomach for him which had before yielded to nothing but chloroform.

The almost daily testimony from various parts of the country encourage us to believe there is no disease caused by a disordered stomach it will not speedily cure.

Physicians endorse and Use it!

Ministers give testimony of its efficacy!

And from all directions we receive tidings of cures performed.

Dyspepsia!
It is sure to cure.

AMERICAN ORGANS.

[From "Godey's Ladies' Book," February, 1866.]

—o—

REED ORGANS, &c.

The following remarks and suggestions relative to this immensely popular instrument will doubtless interest and profit very many of our readers; we commend the article to their careful perusal:

A hundred and one makers of Organs, Cottage, Parlor, Cabinet, American, School Organs, etc., etc., are each claiming to make the best instrument in the world. Being comparatively a new instrument, as at present constructed, we are convinced the public are much less capable of judging of its merits, or demerits, than of most other instruments. If there is really an essential difference in them, if there are some excellent and some worthless ones, the public should have some criterion for judging of them, some facts which will enlighten them. We cheerfully concede the space for this article, knowing that there is hardly a family, or church, or school, in all the land, but is more or less interested in this topic. We are also aware of its being a great misfortune, a real calamity, to any of them, to purchase an inferior or worthless Organ, ruinous to good playing, and often a source of much annoyance and vexation. We know this article to emanate from a candid and intelligent source, and thus we give it to our readers.

The question is often asked, What are "reed organs?" We answer, they are, in most cases, nothing in the world but the old melodeon in disguise. Many of the so-called organs have the same bellows, the same reeds, and the same general internal arrangement. With the bellows turned on edge to gain room, they have simply put on a more pretentious exterior, and a more high sounding name. But an organ, to be in reality an *organ*, must have a wind-chest or reservoir for air, separate from the bellows room, into which wind-chest the reeds open, and the tone has room to expand and perfect itself into the full, round tone, similar to the flute or pipe organ—even, smooth, firm, and mellow; and this tone from reeds cannot be obtained in any other way known. Nothing so annoys a true organist as to have the volume of sound swelling and jerking spasmodically with every variation of force on the bellows, which is always the case where the reeds open direct into the bellows or air-passages, instead of a wind-chest or sound-box. And yet some makers even go so far as to claim this spasmodic or automatic jerking of the bellows on the reeds as an excellence, just as though they did not know that it must very soon throw the reeds out of tune, and injure the bellows; and as though it were not an easier matter to obtain a much better and more easily managed swell by other methods. The truth is, any organ, so called or melodeon, which has the wind acting directly upon the reeds, is nothing more nor less than a huge accordeon, dress it up as you may. And when organists and true musicians become aware of the fact that they can obtain those that are organs in fact as well as in name, they will buy no more of the objectionable ones. Then again the swell should always be separate and distinct from the bellows, so as not to be acted on by the hard or soft blowing but convenient, so that the player can use it with the knee, separate from the hands or feet, and thus always under easy control, to be used *ad libitum*.

The large divided bellows, or double bellows, also a very important improvement. By this means not only can the wind be supplied more evenly, but with far greater ease to the performer, from the fact that either bellows alone will be sufficient for the lighter melodies, thus permitting the player to change about and rest the feet at will; then, if the bellows is of the requisite large size, and having the wind-chest or reservoir, all will be well. As to the reeds, they must be scientifically tuned and voiced, or all the other good qualities in the world cannot produce a good toned instrument. The inquiry now very naturally arises, where can the organ be procured combining all these essential and desirable qualities?—There is only one possessing all these points, and that is the AMERICAN ORGAN, made by S. D. & H. W. SMITH, of Boston, SIBERIA OTT, Wholesale Agent, 581 Broadway, New York. These organs have a wind-chest extending the whole length of the instrument, and so constructed as to act at the same time as a reverberating sound-box or board, and having the same important relation and part to perform that the sounding board has to the piano. This feature the makers have patented, and to it are owing in a great measure the entirely unequalled fullness and richness of tone so highly prized by all who have used these organs. They also have the largest and best divided bellows in use, which is another important feature. No part of their work is slighted, no expense or pains spared to make the American Organs perfect musically, as well as mechanically and, judging from the immense sale of them at present, they bid fair to long maintain the proud position they have won by superior merit alone. We would most heartily advise all interested to call upon or address MR. SIBERIA OTT, the WHOLESALE AGENT, at 581 Broadway, New York, and can assure them he will, in the most gentlemanly and truthful manner, impart to them all the information they may desire, and send them descriptive circulars, relative to this truly delightful instrument.

The American Organ

Makes home attractive, refines and elevates the minds of all, beautiful in appearance and effects.

SIBERIA OTT,

581 Broadway, New York, Wholesale Agent.

The immense popularity of these Organs, and their superior Musical Powers, is fast bringing them before the public, as the instrument so long desired in AMERICAN HOMES. And although the cost price is but a trifle over the Melodeon, yet the musical advantages, beauty of tone and quickness of touch and action are so far superior, that they are fast superceding the Melodeon and the call is now almost exclusively for the

AMERICAN ORGANS.

It is adapted to any Music from the quickest and most lively, to the heavy tone of the Church Organ. And almost universally they are preferred to the Piano, by persons who have them, yet costing less than half, and only taking a small amount of room.

Send for descriptive circular giving full particulars and prices.

Miscellaneous.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

76 State Street, opposite Kilby, st.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners, with whom I have had official intercourse.
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office.
EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.
